NB :- CPC - Centre Pasteur du Cameroun.
- HM - Laboratoire de Santé Hygiène Mobile.
- GHl - Global Health Laboratory.
- CHU - Centre Hospitaliere Universitaire.
- T.M.R.S.K - Tropical Medicine Research Station - Kumba.

IT IS OBSERVED THAT :

The above patients have good CD4 values, low viral load, and therefore a competent Immune system.

Therefore, patients who present early with a good immune system can be “cured” easily.

This proves that VANHIVAX works.
